ROCKLAND ANNOUNCES NEW BOARD MEMBER

Vancouver, British Columbia, April 15th, 2025, Rockland Resources Ltd. (the “Company” or “Rockland”) (CSE: RKL) (OTCQB: BERLF), is pleased to announce the addition of Tracy Hughes to the Board of Directors.

Ms. Hughes is a seasoned entrepreneur and influential capital markets leader with over 30 years of professional experience. Tracy founded and serves as Executive Director of the Critical Minerals Institute (CMI), an influential think-tank known for its weekly Technology Metals Report and annual CMI Summit, which fosters collaboration and strategic alignment among industry leaders and policymakers worldwide. She also serves as Founder, CEO, and Director of InvestorNews Inc.⁽¹⁾ a premier digital media platform that attracts over 120 million annual hits and has worked with thousands of publicly traded companies across North America, Australia, and the United Kingdom. Ms. Hughes leverages extensive expertise gained from previous roles, including co-founding REE Stocks PLC, a FTSE-recognized rare earth indices company, and serving as a principal partner at boutique investment bank Weslosky & Cowans Ltd. Tracy is widely recognized for advancing innovation and strategic partnerships within the global investment community.

“We are grateful to have Tracy join our Board at this time as we grow out our beryllium portfolio based in Utah. Her experience and contacts in the critical metals space are exactly what we as an enterprising junior company need, and we look forward to building Rockland together from this point on.” stated Mike England, CEO of Rockland.

The Company has set 200,000 options of the Company at a price of \$0.11 for a period of 3 years to Ms. Hughes in accordance with the Company’s stock option plan.

The Company further announces the resignation of Charles Desjardins from the Board, as he focuses his attention to future endeavours. Rockland thanks Mr. Desjardins for his many years of service with the Company.

Exploring For Tomorrow’s Technology

Rockland Resources is advancing critical metals exploration and is specializing in beryllium at its strategically located Beryllium Butte and Claybank projects in the Spor Mountain region of Utah, USA. Spor Mountain is home to Materion’s (NYSE: MTRN) Spor Mountain Mine, the largest beryllium producer in the world and continuously mined since 1969.
